

# AGROBOOST K

Immunity Booster

**AGROBOOST K** is a unique formulation with the dual benefit of enhancing a plant's nutrition and activating the plants physiological processes to overcome biotic stresses. The bio-active nature of Agroboost K ensures rapid absorption into the plant system and improves vigour, health and growth.

**Active Ingredients:**

Activated Potassium salt of long chain phosphorous min 96.0%

**Benefits:**

- Induce Systemic Acquired Resistance (SAR) in plants
- Enhances levels of antioxidants, phytoalexins and phenolic compounds in the plant system
- Strengthens plant's resistance against fungal pathogens
- Exhibits quick impact due to easy translocation within xylem & phloem
- Source of bioavailable potassium

**Application Rates:**

1 kg/hectare/application. Apply 2 times per season (pre-flowering and 3 weeks after first application)

Mode of application: Foliar spray and drenching

**Recommended Crops:**

Suitable for all field crops, fruits and vegetables

**Precautions:**

- Agroboost K is compatible with most agrochemicals and water soluble fertilisers. A "Jar Test" is recommended before use.
- Adopt all precautions recommended for foliar sprays.
- Keep out of reach of children and pets.
