

GEOXOL Liquid

Soil Conditioner

GEOXOL Liquid is a proprietary blend of ingredients formulated to rejuvenate soils for sustainable productivity. Certified organic (allowable input) in Australia.

Active Ingredients:

| | | | |
|-----------------|------|----------------|-------|
| Nitrogen | 1.0% | Phosphorous | 1.0% |
| Potash | 0.5% | Carbon content | 25.0% |
| Soluble silicon | 0.4% | | |

Benefits:

- All ingredients used in the product are eco-friendly and residue free
- Improves soil physical properties like water holding capacity, aggregation stability
- Improves fertiliser efficiency
- Improves soil health by stimulating microbial growth

Application Rates:

Dose: 4000ml/hectare/application. Higher doses are recommended for problematic soils
Mode of application: Soil application
Time of application: Along with application of liquid fertiliser in row crops and three times (sprouting stage, fruit setting, fruit development) for horticultural crops

Recommended Crops:

Suitable for all crops

Precautions:

- Geoxol Liquid is compatible with most agrochemicals. A "Jar Test" is recommended before use.
- Adopt all precautions recommended for soil application.
- Keep out of reach of children and pets.
