

NUTRIN ZINC

Micronutrient

NUTRIN Zinc is a 39.5% fully water soluble formulation of micronized zinc oxide in suspension. The smaller particle size of the formulation ensures better absorption and utilisation by plants for triggering crop growth and overall development.

Active Ingredients:

Zinc (as Zn) min 39.5% by weight

Benefits:

- Zinc is sourced from nitrate, sulphate and chloride free source
- Improves plant uptake and assimilation of zinc
- Essential for optimum leaf size and photosynthetic potential
- Improves root development and essential enzyme production

Application Rates:

750ml/hectare/application

Mode of application: Foliar spray and seed coating

Recommended Crops:

Suitable for all field crops, fruits and vegetables

Precautions:

- Nutrin Zinc is compatible with most agrochemicals. A "Jar Test" is recommended before use.
- Adopt all precautions recommended for foliar sprays.
- Keep out of reach of children and pets.
