

# PROFUZE

## Specialty Nutrient

**PROFUZE** is a proprietary blend of essential nutrients, complex biomolecules and trace elements empowered with plant available silicon based on patented ortho silicic acid (OSA) technology.  
 Certified organic (allowable input) in Australia.

**Active Ingredients:**

Nitrogen	0.7%	Phosphorous	0.6%
Potash	0.5%	Sulphur	1.0%
Boron	0.05%	Ortho Silicic Acid	2.7% (Silicon 0.8%)

**Benefits:**

- All ingredients used in the product are eco-friendly and residue free
- Optimises crop nutritional status
- Helps crop to mitigate abiotic stresses viz. temperature fluctuations, water shortage, frost and soil related stress viz. acidity, alkalinity, salinity, heavy metals toxicity
- Reduces incidence of pest attacks and diseases
- Improves productivity and marketable yield of crops

**Application Rates:**

1000 ml/hectare/application. Under stress conditions, the number of applications or dose can be increased

Mode of application: Foliar spray

**Recommended Crops:**

Suitable for all fruits and vegetables

**Precautions:**

- Profuse is compatible with most agrochemicals. A "Jar Test" is recommended before use.
- Adopt all precautions recommended for foliar sprays.
- Keep out of reach of children and pets.
